# OJJDP FY 2007 Title II Formula Grants Program

## Performance Measures

To assist in fulfilling the Department's responsibilities under the Government Performance and Results Act (GPRA), P.L. 103-62, applicants who receive funding under this solicitation must provide data that measures the results of their work. To ensure compliance with GPRA, OJJDP requires all states to collect and report performance measurement data on their subgrantee programs. Performance measurement data represent the data/information that all subgrantees in a program area will collect at the program level to measure the specific outputs and outcomes a program is designed to achieve (see Appendix D, for Formula Grant Program Areas).

Based on the subgrantee's program area, the subgrantee should select the performance measures that reflect the subgrantee's program goals and objectives. (See additional information under "Performance Measures," page 15.)

Objectives	Performance Measures	Data Grantee Provides
<p>The program objective(s) will depend upon the specific project funded.</p> <p>Examples of objectives may include decrease of delinquent behaviors and increase of prosocial behaviors.</p>	<p>These will differ, depending on the specific program goals and objectives. Examples are below.</p> <p>Percentage of program youth who complete program requirements.</p> <p>Percentage of program youth who re-offend.</p> <p>Percentage of program youth who exhibit desired change in targeted behaviors (depends on specific behavior targeted and might include substance use, school attendance, antisocial behavior, family relationships, etc.).</p>	<p>OJJDP has developed an online reporting system for state grantees or their subgrantees to submit subgrantee data to OJJDP electronically.</p> <p>Number of program youth who have successfully fulfilled all program obligations and requirements compared with total number of program youth.</p> <p>Number of program youth who re-offend (are arrested) compared with total number of program youth.</p> <p>Number of program youth who exhibit desired change in targeted behaviors (depends on specific behavior targeted and might include substance use, school attendance, antisocial behavior, family relationships, etc.) compared with total number of program youth.</p>
