1 Evidence-based programs and practices are those that have been shown, through rigorous evaluation and replication, to be effective in preventing or reducing juvenile delinquency, victimization, or related risk factors. Evidence-based programs or practices can come from many valid sources (e.g., University of New Hampshire and RTI’s Multi-site Evaluation of Children’s Advocacy Centers, National Children’s Advocacy Center’s Cost-Benefit Analysis of Community Responses to Child Maltreatment and Economic Impact of Child Maltreatment, OJJDP’s Model Programs Guide, SAMHSA’s Model Programs, State Model Program resources). Evidence-based practices may also include practices adopted by agencies, organizations, or staff that are generally recognized as “best practice” based on research literature or the degree to which the practice is based on a clear, well-articulated theory or conceptual framework for delinquency or victimization prevention or intervention.

### How To Apply

DOJ is participating in the e-Government initiative, one of 25 initiatives included in the President’s Management Agenda. As part of this initiative, Grants.gov provides a unified process for all customers of federal grants to find funding opportunities and apply for funding.

**Grants.Gov Instructions.** Applicants can find complete instructions at [www.grants.gov](http://www.grants.gov). Applicants experiencing difficulties at any point during this process should call the Grants.gov Customer Support Hotline at 1−800−518−4726.

Grants.gov does not support the Microsoft Vista operating system. Nor can Grants.gov process Microsoft Word 2007 documents saved in the new default format with the extension ".docx." Save any documents using the "Word 97-2003 Document (*doc)" format. Other disallowed file types include, the following extensions: com, bat, exe, vbs, cfg, dat, db, dbf, dll, ini, log, ora, sys, and zip.

**CFDA Number.** The Catalog of Federal Domestic Assistance (CFDA) number for this solicitation is 16.547, and the funding opportunity number is OJJDP-2008-1837.

**DUNS Number.** The Office of Management and Budget requires that all businesses and nonprofit applicants for federal funds include a DUNS (Data Universal Numeric System) number in their application for a new award or renewal of an award. Applications without a DUNS number are incomplete. A DUNS number is a unique nine-digit sequence recognized as the universal standard for identifying and tracking entities receiving federal funds. The identifier is used to validate address and point of contact information. The DUNS number will be used throughout the grant life cycle. Obtaining a DUNS number is a free, simple, one-time activity. Call 1−866−705−5711 or apply online at [www.dunandbradstreet.com](http://www.dunandbradstreet.com) to obtain a number. Individuals are exempt from this requirement.
What an Application Must Include

Standard Form—424

Applicants must complete the Application for Federal Assistance (SF–424), a standard form that most federal agencies use, following the instructions it provides.

Program Narrative

Applicants must submit a program narrative that presents a detailed description of the purpose, goals, objectives, strategies, design, and management of the proposed program. The program narrative must be double spaced, using a standard 12-point font (Times New Roman preferred), with 1-inch margins, not exceeding 25 pages of 8½ by 11 inches. (Number pages “1 of 25,” “2 of 25,” and so forth.) Material required under the “Budget and Budget Narrative” and “Other Attachments” sections will not count toward the program narrative page count. OJJDP may deem applications that do not adhere to the required format to be ineligible.

The program narrative must address the following selection criteria: (1) program abstract; (2) statement of the problem/program narrative, (3) impact/outcomes and evaluation, (4) project/program design and implementation, and (5) capabilities/competencies. Applicants should clearly delineate the connections between and among each of these sections. For example, applicants should derive the goals and objectives directly from the problems to be addressed. Similarly, applicants should clearly explain in the project design section how the program’s structure and activities will accomplish the goals and objectives identified in the previous section. Each of these sections is described below.

- Program Abstract

Applicants must provide a brief summary describing the proposed project, including goals, objectives, major activities to be carried out, and expected outcomes. The abstract must not exceed one-half page of 8½ by 11-inches.

- Statement of the Problem/Program Narrative

Applicants must briefly describe the nature and scope of the problem in the jurisdiction that this project will address (e.g., gang activity, underage drinking, drug abuse, truancy, youth employment, school performance, etc.). Applicants should use local data to provide evidence that the problem exists, demonstrate the size and scope of the problem, and document the effects of the problem on the target population and the larger community. Applicants should describe any previous or current attempts to address the problem.

- Impact/Outcomes and Evaluation

Applicants must describe the goals of the proposed project and identify its objectives. When formulating the project’s goals and objectives, applicants should be cognizant of the performance measures that OJJDP will require them to provide.
Goals. Applicants should provide a broad statement, written in general terms, that conveys their program’s intent to change, reduce, or eliminate the problem described. This section of the program narrative must outline the specific goals of the project.

Program Objectives. Applicants should explain how their programs will accomplish their goals. Objectives are specific, quantifiable statements of the desired results of the program, and the applicants should clearly connect them to the problems identified in the preceding section. The objectives should be measurable. (Examples of measurable objectives might include the following: to provide school-based and community services for 40 youth returning from commitment, to increase the percentage of youth who successfully complete their current academic grade, to expand counseling services to cover an additional 50 at-risk youth.)

Performance Measures. OJJDP requires award recipients to collect and report data in support of performance measures. (See “Performance Measures,” page 4). Recipients’ assistance in obtaining this information will facilitate future program planning and will allow OJP to provide Congress with measurable results associated with federally funded programs. Performance measures must reflect the specific problems, goals and objectives, and design (see “Project/Program Design and Implementation” below) associated with this grant.

To ensure that the Performance Measures that the grantee selects reflect the specific problems, goals, objectives, and design strategy of the project, OJJDP has developed mandatory performance measures. To determine those that apply to your application, visit ojjdp.ncjrs.gov/grantees/performance.html.

- Project/Program Design and Implementation

Applicants must describe the specific strategies that they will use to implement the proposed program. Applicants should develop a program design that will facilitate the gathering of data on the required performance measures.

In this section, applicants should describe what they propose to do and how they intend to do it. The applicants should identify the program’s target population and explain how their proposed strategy will achieve the goals and objectives identified in the previous section.

Applicants must demonstrate that they have queried the SMART system to determine program placement in a community facing significant need. OJJDP will be offering additional training and guidance on the SMART system and this new requirement. In the interim, all applicants should access the SMART system at http://smart.gismapping.info and follow the guidance that is provided on the Sign In Page. All applicants will be required to register with the SMART system, become familiar with the data and information that is currently available, and generate a report, based upon the guidance for their particular solicitation.

Applicants should include a logic model that graphically illustrates how the chosen performance measures relate to the specific problems, goals, and program activities. Sample logic models are available at ojjdp.ncjrs.gov/grantees/performance.html.

This section should be detailed and describe how the project will operate throughout the duration of the funding period. OJJDP encourages applicants to select evidence-based practices for their programs. This section must also discuss plans for sustainability, i.e., how the program will continue to operate beyond the period of the OJJDP grant award.
This section should also include details regarding any leveraged resources (cash or in-kind) from local sources to support the project. Applicants should identify other federal, state, or private foundation grants that serve the same local area and target population.

Finally, applicants should describe any research or evaluation studies that support their entire project design or any of its components. Applicants should also note previous research related to the selected problem area to indicate the applicants' understanding of the causes of—and potential solutions to—the problems to be addressed. While OJJDP expects applicants to review the research literature for any relevant studies, program staff should also explore whether any unpublished local sources of research or evaluation data are available.

In addition to the narrative description of the project design, applicants must also submit a timeline or milestone chart that indicates major tasks in the proposed design, assigns responsibility for each major task, and plots completion of these tasks by month or quarter for the duration of the award. The applicant should submit this timeline/milestone chart as a separate attachment as stipulated in “Other Attachments,” page 11.

- **Capabilities/Competencies**

Applicants must describe the roles and responsibilities of project staff and explain their program’s organizational structure and operations.

This section of the program narrative must describe how the applicants will manage and staff the project locally. Applicants should clearly connect management and staffing patterns to the project design described in the previous section. This section should describe the experience and capability of the applicants’ organization and any contractors who will be used to effectively implement and manage this effort and its associated federal funding. The applicants should highlight any prior experience implementing projects of similar design or magnitude in this section.

**Budget and Budget Narrative**

Applicants must provide a budget that: (1) is complete, allowable, and cost effective in relation to the proposed activities; (2) shows the cost calculations demonstrating how the applicant arrived at the total amount requested; and (3) provides a brief supporting narrative to link costs with project activities.

Applicants should include in their budget funds to allow one or more staff to participate in a special conference on child protection in the autumn of 2008. The 4-day conference will include opportunities for the applicant to participate as an exhibitor, presenter, and session sponsor and to attend sessions of interest. OJJDP will determine the location for the conference in early 2008. Applicants should use a city in the Midwest for formulating their estimated travel costs.

Applicants must submit a budget that includes both a detailed worksheet itemizing all costs and a narrative explaining and justifying each budget item:

- **Budget Detail Worksheet.** The worksheet should provide the detailed computation for each budget line item. The worksheet must list the cost of each item and show how the applicant calculated the cost. For example, under costs for personnel, the applicant should show the annual salary rate and the percentage of
time that each employee paid through grant funds will devote to the project. The budget detail worksheet should present a complete and detailed itemization of all proposed costs. A budget detail worksheet template is available at http://www.ojp.usdoj.gov/funding/forms/budget_detail.pdf.

- **Budget Narrative.** The narrative should describe each budget item and relate it to the appropriate project activity. It should closely follow the content of the budget detail worksheet and justify all proposed costs. In the budget narrative, applicants should explain how they calculated fringe benefits, how they estimated travel costs, why they must purchase particular items of equipment or supplies, and how they calculated overhead or indirect costs (if applicable). The budget narrative should justify the specific items listed in the budget detail worksheet (particularly supplies, travel, and equipment) and demonstrate that all costs are reasonable.

**Indirect Cost Rate Agreement.** Applicants who do not have a federally negotiated indirect cost rate and wish to establish one can submit a proposal to their cognizant federal agency. Generally, the cognizant federal agency is the agency that provides the preponderance of direct federal funding. Review your organization’s schedule of federal financial assistance to determine the agency. If DOJ is your cognizant federal agency, obtain information needed to submit an indirect cost rate proposal at http://www.ojp.usdoj.gov/funding/pdfs/indirect_costs.pdf.

**Other Attachments**

Applicants must submit the following materials as attachments to their GMS application. The Other Program Attachments—which applicants must submit as a Microsoft Word document (.doc), PDF file (.pdf), or text document (.txt)—must include:

- Annualized project timeline containing each project goal, related objective, activity, expected completion date, and responsible person or organization. Do not use actual calendar months/years in your timeline; instead, prepare the timeline using “Year 1,” “Month 1,” etc. (See “Sample Project Timelines” at ojjdp.ncjrs.gov/grantees/timelines.html.)

- Résumés of all key personnel.

- Job descriptions outlining roles and responsibilities for all key positions.

- Letters of support/commitment and memorandums of understanding (where appropriate).

- **Geographic Information.** To help OJP develop a geographic information system (GIS) strategic planning capacity, applicants must provide the following two items of information on the geographic area that their funded activity (“service area”) serves in the formats specified below. If the mailing address is in a rural area with no street address, include the nearest street intersection. If the program has multiple service areas, include the required information for each area. If proposed multiple service areas have not been determined, simply provide the requested information for the applicant.

  o **Physical address.** If the mailing address is a P.O. Box, specify the physical address of the location where services are to be provided.
(example with street address)  (example with no street address)
ABC Associates                 ABC Associates
123 First Street               First Street and Holiday Drive
Shrewsbury, PA 17361          Shrewsbury, PA 17361

- **Map and street description.** Provide a road map (with local detail) with the service area clearly depicted. Mark the map with information identifying the grant application it is tied to, including applicant's name, application number, and contact name and phone number. Also, include a written description of streets bounding the service area. If GIS files are available, e-mail them to Dennis Mondoro at Dennis.Mondoro@usdoj.gov

**Review Process**

OJP is committed to ensuring a standardized process for awarding grants. OJJDP reviews the application to make sure that the information presented is reasonable, understandable, measurable, and achievable, as well as consistent with program or legislative requirements as stated in the solicitation.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final grant award decisions will be made by the Assistant Attorney General (AAG), who may also give consideration to factors including, but not limited to, underserved populations, strategic priorities, past performance, and available funding when making awards.
